UN-Backed “Great Reset” to Usher in New World Order

by Alex Newman July 15, 2020

Get ready for a lot less freedom and prosperity, and a lot more government — at least if the elites get their way.

After peddling coronavirus lockdowns that crushed the economy and funding riots that terrorized the public under the guise of fighting “systemic racism,” Deep State globalists are stepping in to offer their proposed “solution” to the crises they themselves unleashed: A “Great Reset” to transform the world and everything in it, supposedly for the benefit of the masses, but really for the benefit of the ruling classes.

Top leaders of Big Business, Big Globalism, and Big Government worldwide — including royalty and mass-murdering communist tyrants — are jumping on the bandwagon. But even before the scheme is fully outlined and understood, resistance is growing quickly.

The brainchild of the World Economic Forum, a globalist group of powerful Deep State elites that meets every year in the Swiss ski-resort town of Davos, the “Great Reset” aims to fundamentally re-engineer industries, societies, education, agriculture, and more.

Its advocates are openly saying as much, with WEF boss Klaus Schwab declaring “all aspects of our societies and economies” need to be “revamped.” Even “our thinking and behavior” will have to dramatically shift, he said. A WEF statement marketing the controversial scheme also calls for a “new social contract” centered on “social justice.”

“Every country, from the United States to China, must participate, and every industry, from oil and gas to tech, must be transformed,” added Schwab, calling for even “stronger and more effective” government. “We must build entirely new foundations for our economic and social systems.” And there is no other choice but to submit, he and others declared.

A video about the looming “Great Reset” offers a creepy glimpse into what the globalists are selling:

Business and economic changes will be massive, Schwab explained. “The Great Reset will require us to integrate all stakeholders of global society into a community of common interest, purpose and action,” explained Schwab, the globalist front-man who runs the WEF. “We need a change of mindset, moving from short-term to long-term thinking, moving from shareholder capitalism to stakeholder responsibility. Environmental, social and good governance have to be a measured part of corporate and governmental accountability.”

In short, what remains of the tattered free-market system is set to be tossed out — along with the vibrant middle class it sustained. In its place will rise technocratic governance based on nebulous “social” and “environmental” goals set by the technocrats.

The changes will be systemic, too. “The COVID19 crisis has shown us that our old systems are not fit anymore for the 21st century,” the WEF leader said in a speech about the Great Reset last month, calling a change in “mindsets” the “most important” issue. “Now is the historical moment — the time — not only to fight the virus, but to shape the system for the post-corona era.”

While the Great Reset is being framed by Schwab and other proponents as a response to the coronavirus, the moderator of the Great Reset event admitted that the WEF founder had been working on the agenda “for many decades.” Schwab did not protest that assertion. And judging by the enormous amount of work that went into this — including the “strategic intelligence” program — it is clear that this has been in the works for quite some time.

Globalists have been throwing the term “Fourth Industrial Revolution” around for years now. In 2016, Schwab explained that this “revolution” would “fundamentally alter the way we live, work, and relate to one another.” The transformation, he continued, would be “unlike anything humankind has experienced before,” bringing together “all stakeholders of the global polity.”

In essence, the “revolution” involves blurring the lines between the “physical, digital, and biological spheres” — literally the merging of man and machine, dubbed “transhumanism” by advocates and opponents alike. And while it seemed like just another kooky globalist pipe dream back then, the coronavirus panic has paved the way for unprecedented changes, as Schwab boasted.

“COVID-19 has accelerated our transition into the age of the Fourth Industrial Revolution,” Schwab said in his remarks about the Great Reset posted on the WEF website. “We have to make sure that the new technologies in the digital, biological and physical world remain human-centered and serve society as a whole, providing everyone with fair access.”

Interestingly, the notion that under free markets, everything serves “capital,” and under collectivism, everything serves “society as a whole, providing everyone with fair access,” is straight out of the Marxist playbook. Such rhetoric almost always precedes a dramatic loss of freedom and prosperity.

That same rhetoric coming from Schwab and the WEF is found in key UN agreements that are serving as the foundation of the emerging New World Order. In UN Agenda 2030, also known as the “Sustainable Development Goals,” every national government and dictatorship on Earth agreed to very similar dictates.

In Goal 10, for instance, the UN and its members pledge to “reduce inequality within and among countries.” To do that, the agreement continues, will “only be possible if wealth is shared and income inequality is addressed.”

As the UN document also makes clear, national socialism to “combat inequality” domestically is not enough — international socialism is needed to battle inequality even “among” countries. “By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources,” the document demands, sounding suspiciously like the WEF “Great Reset” manifesto.

The UN document also calls on government to seize control over “production and consumption.” It prescribes government-controlled healthcare systems for all, too.

And it demands that children be “educated” to the point that they do not just agree with the ideology underpinning the scheme, but are actually prepared to “promote” it. Goal 4 — so-called “education” — will be the key to achieving all the others, as the UN has admitted on many occasions.

It is no surprise that the “Great Reset” mirrors the UN agenda so closely. In fact, last year, the WEF inked a “Strategic Partnership Framework” deal with the UN designed to facilitate the imposition of Agenda 2030 on humanity.

“Meeting the Sustainable Development Goals is essential for the future of humanity,” explained Schwab at the time. “The World Economic Forum is committed to supporting this effort, and working with the United Nations to build a more prosperous and equitable future.” The head of the UN, self-styled socialist Antonio Guterres, celebrated how the partnership would help bring the private sector onboard.

Indeed, communist leaders, including members of the mass-murdering Communist Party of China, are now openly joining forces with capitalist bigwigs and Big Business CEOs to push the scheme. Guterres, the former chief of the Socialist International alliance of

socialist and Marxist parties, also lent his support to the WEF’s “Great Reset” agenda.

“The Great Reset is a welcome recognition that this human tragedy must be a wake-up call,” he said in his remarks which were also posted on the WEF’s website. “We must build more equal, inclusive and sustainable economies and societies that are more resilient in the face of pandemics, climate change and the many other global changes we face.”

The IMF is also a key player. IMF boss Kristalina Georgieva boasted of the “very massive fiscal stimulus” being “injected” into the global economy. This massive infusion of cash looted from humanity must be used to forcibly restructure the economy so it can be rebuilt “greener” and “smarter” and “more fairer” in the future.

For instance, she said governments and international organizations could put in place “incentives” such as “carbon prices” to force companies to do what the globalist establishment wants. “Carbon prices,” of course, is just code language for literally taxing the gas exhaled by human beings, CO_2. She also demanded more government “social programs” to “take care of people.”

The mass-murdering regime enslaving Communist China played a “crucial role” in developing Agenda 2030, as Beijing’s propaganda organs boasted after it was signed. Not surprisingly, the dictatorship — literally the most murderous government in human history — is also playing a growing role within the WEF.

At the 2017 WEF meeting in Davos, Deep State globalists were tripping over themselves to shower praises on Communist Chinese dictator Xi Jinping. With President Donald Trump in the White House throwing a monkey wrench in the gears of the globalist machinery, the mass-murdering tyrant was seen as the new defender of the “liberal world order.” Yes, seriously. The rise to prominence of Beijing has long been part of the globalist plan.

Beijing’s minions will play a key role in shaping the “Great Reset,” too. Indeed, one of the nine speakers and boosters for the Great Reset was Communist Chinese operative Ma Jun, chairman of the “Green Finance Committee” and a bigwig at the People’s Bank of China. In his remarks on the Great Reset, Ma emphasized “Green” over and over again, calling for “Green” stimulus and a “Green” economy directed by “Green” incentives, employment schemes, subsidies, and more.

UN, communist, and globalist leaders have all started using the term “green economy” almost interchangeably with a totalitarian-technocratic system of global governance. Even in America this is true. Obama’s “Green Jobs” Czar Van Jones, for instance, was forced to resign when his revolutionary Maoist views become well known. And the “Green New Deal,” which mirrors the Great Reset scheme, is transparently a recipe for global tyranny and poverty.

If there was any doubt that technocratic global government was the goal, Schwab put it to rest with his public comments. “This global pandemic has also demonstrated again how interconnected we are,” he explained about the Great Reset. “We have to restore a functioning system of smart global cooperation structured to address the challenges of the next 50 years. We only have one planet.”

And in case there was any doubt about what that global system will demand of individuals, Schwab again put it to rest. “We have to decarbonize the economy in the short window still remaining and bring our thinking and behavior once more into harmony with nature,” he said. Read that again: Even your thinking and behavior is in the global elites’ cross hairs.

“A Great Reset is necessary to build a new social contract that honors the dignity of every human being,” continued Schwab, once again using empty Marxist-style rhetoric to build support for the very policies that always and everywhere strip individuals of their dignity and free agency. “The global health crisis has laid bare the unsustainability of our old system in terms of social cohesion, the lack of equal opportunities and inclusiveness.”

Also jumping onboard the Great Reset bandwagon was population-control zealot Prince Charles, whose family is currently embroiled in the Jeffrey Epstein child-sex-trafficking scandal. “In order to secure our future and to prosper, we need to evolve our economic model and put people and planet at the heart of global value creation,” said Charles, heir to the throne. “If there is one critical lesson to learn from this crisis, it is that we need to put nature at the heart of how we operate,” continued the son of the queen of England. “We simply can’t waste more time.”

While Charles is a fervent advocate of population control, his father was even more blunt, famously expressing his desire to kill large numbers of people: “In the event that I am reincarnated, I would like to return as a deadly virus, to contribute something to solving overpopulation.” This dangerous attitude is widespread among the elites.

A brief look at the other key players reveals a great deal as well. The first of nine names on the list is Victoria Alonsoperez, with a company called “Chipsafer.” The firm makes implantable microchips that transmit data on location as well as physiological changes in cattle — at least for now. More than a few government and corporate bigwigs associated with WEF, the UN, and the move toward Technocracy have openly called for micro-chipping humans, too. It is already happening in some parts of the world.

Other “stakeholders” involved in the scheme include the CEO of Mastercard, which is funding Deep State efforts to eliminate cash in a move toward a cashless society. The president of Microsoft, which recently filed patent WO2020-060606 for implantable crypto-currency technology, is also a key booster.

Also leading the charge was the head of enviro-fascist group Greenpeace, which even its own co-founder has rejected for its anti-human, anti-science fanaticism. Disgraced “climate” guru Al Gore, who serves on the WEF board, is also shilling for the Great Reset, along with Skull and Bones member John Kerry.

Critics are already ridiculing the idea, though. “We should not succumb to the quixotic (and totally unrealistic) notion that a few super smart people at the WEF (or any world organization) could press a society reset button, so that seven billion people could magically thrive under a new world order that their brilliant minds concocted,” quipped Chris Talgo with the Heartland Institute in one of several pieces mocking the Great Reset Initiative. “As humans, we have barely enough wisdom and foresight to keep our own lives in order.” He called on humanity to resist the Great Reset agenda for global government “at all costs.”

The finer details of the “Great Reset” are still being worked out, and will be discussed in a series of “virtual” meetings in the run-up to the annual WEF in Davos. Judging from the brutal comments under the WEF promo video peddling the “Great Reset” though — many of which blasted the scheme as a satanic ploy for a New World Order that would face massive resistance — the globalist elite has a long way to go.

American patriots who love their nation, self-government, the Constitution, and individual liberty will undoubtedly resist. People of faith who believe the Bible and the principles contained within it will, too. The question now is whether the globalists will be able to deceive and manipulate enough people into giving up their freedom in exchange for dishonest promises of “peace” and “safety” that will never be fulfilled.

Here is an interesting look at how the United Nations is subtly trying to change society to remake us in its own image:

Subjugating the World to Global slavery, all in one felled swoop. Led by China with the UN.
All without firing a shot.

Thank God for "monkey wrench" Trump.
What a bunch of bloviating doublespeak those Elites spew out, trying to mask the stench of their murderous intentions.

Anyone who had been watching the demise of Agenda 21 implementation had to see the globalist elite were not going to walk away empty handed.
Too many people were realizing the man made climate change theory was a hoax. So they manufacture an emergency by making up this hoky virus scare along with the rinky dink "Floyd Protests" to dupe the media programmed sheep into accepting more restrictions. I
